

# Science workshop

## Tuesday 16h - 17h30

This hands on and informative science workshop for children aged 6 -12 will be exploring topics such as - What are the States of Matter? Simple and Complex machines; Force and Motion; Chemistry; Electricity; Transportation and Infrastructure among others. The children will be able to construct their own models and experiments in order to fully explore the concepts that are introduced. Please note that all experiments will be conducted in a safe, controlled environment and under direct adult supervision.

The class will take place at Seeds of Knowledge Montessori in Etoy from 16h - 17h30h every Tuesday, beginning on August 31st, 2021. A healthy snack is provided, but please do inform us of any food allergies.

For questions and registration please contact Bryan Solly at [Jbryansolly@gmail.com](mailto:Jbryansolly@gmail.com)
